

第21回

- 講演者 : **Maria Alessandra Ragusa** 氏 (Universita degli Studi di Catania)
 - 題目 : The framework Morrey space: strengths and weaknesses
 - 日時 : 平成29年3月13日 (月) 14:00 – 15:00

In this talk are given the classical definition of Morrey Spaces $L^{p,\lambda}$, the main properties of them and a lots of example and counterexample highlight some qualities of functions belong to the spaces $L^{p,\lambda}$. Also, some negative properties of extra-integrability are showed. Moreover, we study the relations between two Morrey Spaces and the comparison between Morrey class with other functional spaces.
