

第04回 Giuseppe Mingione

- 講演者: **Giuseppe Mingione**氏 (Universita` di Parma)
- 題目: Recent regularity results for non-uniformly elliptic problems
- 日時: 2019年6月7日(金) 16:30 ~ 17:30
- 場所: 数学科セミナー室(4号館3階)

[seminar, 2019](#)

abstract

Non-uniformly elliptic problems are a very classical topic. The minimal surface equation belong to such a class, for instance. In recent years there has been renewed interest in such problems, with many new models coming for instance from the Calculus of Variations. I will focus on some recent developments including various types of non-uniformly elliptic operators, with special emphasis on those relating with non-autonomous functionals and those related to functionals with very fast growth conditions.

「数理モデリングと数学解析研究部門」と共催予定
